ABOUT OUR COMPANY AND PRODUCTS

About our Company:

We have seen it all! We have over 45 years of experience in the custom window well cover business, and offer a wider variety of custom covers than other manufacturers. If you want one cover or one thousand, we have you covered, and we cater to both contractors and homeowners. We are an innovator in this business and have developed new accessories and cover types through the years. All of the products we sell are made in the USA.

A window well cover is the best decision to protect any type of window well. We have a great selection of covers that will solve any problem.

These points apply to all our Covers:

- Each cover is custom made for each specific well.
- All our covers are designed to keep kids and pets safe.
- The Polycarbonate we use is always UV treated to prevent yellowing, cracking and breaking. This plastic stays stable in high heat and bitter cold, and is virtually unbreakable.
- Our Sloped, Flat, and Bubble window well covers come with a lifetime warranty.
- When we refer to egress size covers, we base this on the IRC Code for window wells over the minimum 36” wide x 36” projection.
- Please note that after you place your order our engineering team will email you to ask for some specific measurements of your well and a few photos to be sure that we can make you the best fitting cover the first time.
- We will ship directly to you, whether it be to your home, a business, or construction site.

SUPER SLANT

Our *Super Slant Window Well Cover* has the best features of all our covers combined into one. The hinged, slanted top sheds water and snow effectively, and the mesh sides provide constant ventilation of your window well.

Along with the unbreakable plastic, these heavy duty window well covers have a sturdy, welded, rust free aluminum frame. The hinged flip top (or escape hatch in larger sizes) allows anyone to lift the cover top easily in case of an emergency.

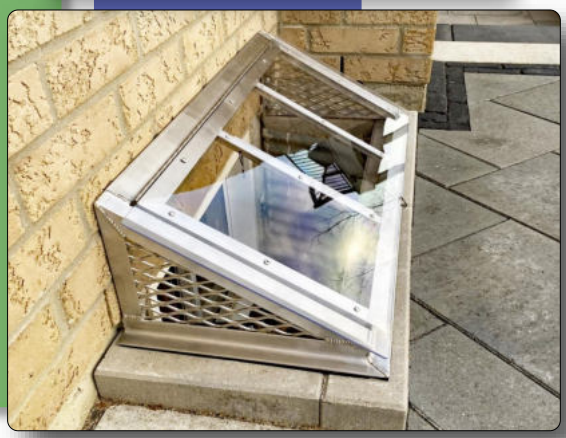

The Super Slant cover features:

- Slanted top for optimal drainage
- Aluminum mesh sides for ventilation
- Supports 400 pounds of static weight
- Hinge and prop-up bar is included on the flip top for easy access and ventilation
- Quick release locking system for the cover on egress sizes
- Warranty 7 years
- Optional: Polycarbonate sides at no charge, if desired.
- Optional: Escape Hatch is available for an additional cost on larger sizes
- Optional: Polycarbonate inserts for the mesh sides (to prevent snow infiltration) are available for additional cost.

ATRIUM

The *Atrium Window Well Cover* is designed to protect your well and the portion of your window that comes above the lip of your window well.

The Atrium is designed so that your casement or crank out style windows can easily open into the well. This cover keeps egress wells clear of ice, snow and debris so that emergency escape is possible. Many customers buy this cover just for the good looks of it!

Atrium features:

- These covers have an unobstructed view; rarely any braces in your line of sight
- Always egress compliant on an egress sized well
- Atrium Covers release from the clips provided for emergency escape or home maintenance
- Optional: Cover Locks on Egress sized covers at additional cost
- Optional: Escape Hatch available for larger sized covers at additional cost
- Optional: Aluminum mesh sides that allow easy ventilation and provides airflow for vent pipes at additional cost

SLOPED COVER

Our *Sloped Window Well Covers* provide your home with unbreakable protection for your loved ones.

The low profile Sloped Cover is our best seller, and here is why. The low profile cover is sleek, unobtrusive protection for your yard. It easily blends into the background, giving you a lifetime of clean, dry window wells, with snap on installation and snap off removal for home maintenance or emergency escape.

Sloped Cover features:

- The clamshell design (up to 2" slope) provides for water drainage, and is self-cleaning with a rain shower or a rinse with a hose—sheds water and debris away from your home.
- We use a high grade Polycarbonate that is UV treated to stay clear
- Keeps snow and rain, dirt, yard debris, and animals out of your window well.
- Supports 400 pounds of static weight.
- Easy do it yourself installation
- Durable—lifetime warranty
- Optional: Quick release locks, Escape hatches, and Cover hinges are available at additional cost

SLOPED COVER

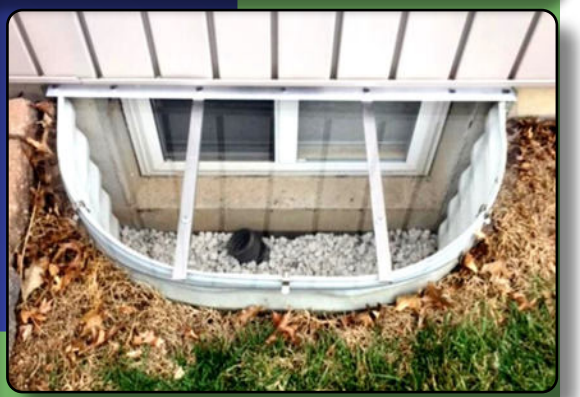

FLAT COVER

Our *Flat Window Well Covers* are made of unbreakable polycarbonate, and are custom-designed to fit any shape, size, and type of window well.

Our low profile Flat Window Well Covers have nearly all the advantages of our Sloped cover. They are an economical alternative to our Sloped Covers—just flat as a table top. A great cover for tight spots, when the 2" slope just won't work.

Flat Cover features:

- Supports up to 400 pounds static weight
- We use a high grade Polycarbonate plastic that is UV treated to stay clear
- Egress compliant in certain sizes
- Lifetime Warranty
- Optional: We have Quick release locks, Cover hinges, and Escape Hatches available at an additional cost

WINDOW WELL EXPERTS Inc.

FLAT COVER

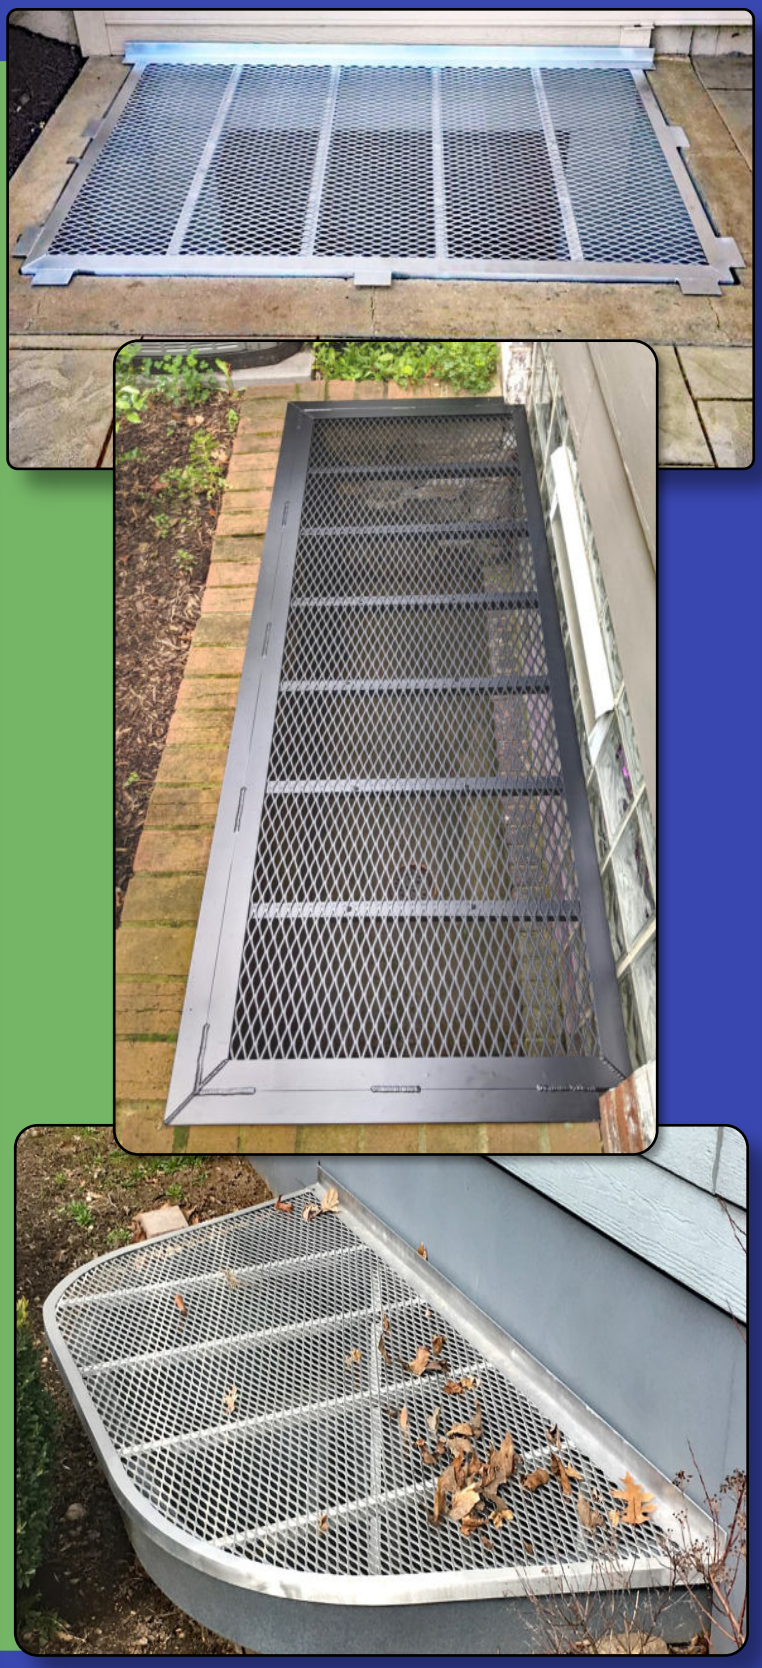

Aluminum Grates

Aluminum Window Well Grates **are the best choice for ventilation for your basement.**

Rust proof aluminum is an amazing material for grates. Expanded mesh allows fresh air ventilation, it allows light into your basement, keeps out all but the smallest debris and is much, much lighter than prefab steel grates offered by many window well manufacturers.

Aluminum Grate features:

- Grates have less flex than plastic covers for better footing
- Minimal tripping hazard on decks or patios; no slippery plastic!
- Rust free, and lightweight for easy escape
- Supports Up To 40 Pounds Per Square Foot
- Optional: Full flange tabs are available—this is one continuous flange support for rectangle wells for additional cost
- Optional: Powder-Coat Finish is available in Black and Gray (as shown) as well as custom RAL colors, both are available for additional cost
- Optional: Emergency Escape Hatch and Locks are available for additional cost
- Optional: Heavier duty grates available for high traffic situations for additional cost

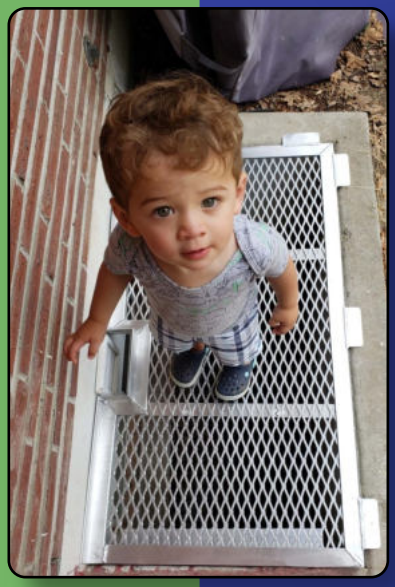

WINDOW WELL EXPERTS Inc.

STEEL GRATES

We make *Steel Window Well Grates* for any type well.

Steel Grates are excellent for small wells, as they are heavy enough to stay in place in strong winds. We can make to any shape or size.

Steel Grate features:

- Keeps kids and pets safe
- Keeps out most animals and large debris
- Makes ventilation easy—no removing the Grate
- Powder-Coat Finish in Black and Gray is included in the price
- 7 year warranty
- Optional: RAL custom colors also available for additional cost
- Optional: We offer the full flange option for additional cost
- Optional: Commercial grade grates are available for heavy foot traffic for additional cost

TOP COVERS

Clear plastic *Top Covers* are another way to have the best of everything with a window well cover.

Clear plastic Top Covers add additional snow and water protection. The covers are versatile and can be left on through the winter and spring thaw, and taken off and easily stored for the summer and fall, or just be removed when fresh air ventilation is needed.

Top Cover features:

- Custom made to fit over ANY window well grate
- We use a high grade Polycarbonate plastic that is UV treated to stay clear
- Available in either Sloped or Flat Style
- Keeps out water, snow, and debris
- It will push off with your grate for emergency egress
- 7 year warranty
- Optional: A Hinge & Prop-Up Bar is available for easiest ventilation for an additional cost
- Optional: If you purchase a grate from us, we can powder coat the back bar and any other metal parts to match the grate for an additional cost.

BUBBLES

Our *Bubble Window Well Covers* are the only UNBREAKABLE bubble available in the market.

- We use a high grade Polycarbonate that is UV treated to stay clear
- Designed to cover windows that extend above the well
- Available in the sizes shown on the chart
- Lifetime Warranty

See our bubble durability test video here:

68" x 24" x 16"	Elongated
68" x 24" x 19"	Elongated

ELONGATED WELLS

Elongated metal window wells **provide great protection from water and debris for your basement windows.**

The smaller projection of elongated window wells will save space, especially in narrow side yards.

- Elongated wells have the widest variety of sizes available for non egress wells,
- Made out of 18 gauge galvanized steel.
- 30 year warranty
- Ship directly to home or construction site
- All window wells can be purchased with a matching window well cover.

Width x Projection	Gauge	Available Depth
37" Width x 12" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"

71" Width x 20" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
79" Width x 20" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
91" Width x 20" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"

SEMI-CIRCLE WELLS

Semi Circle metal window wells **are a traditional window well shape that allows more light into the basement than Elongated wells.**

- Made from galvanized steel
- Keeps landscaping away from your windows
- 30-Year Warranty
- Ship directly to home or construction site
- All window wells can be purchased with a matching window well cover.

Width x Projection	Gauge	Available Depth
37 " Width x 16" Projection	20	12", 18", 24", 30", 36", 48"
40" Width x 20" Projection	18	12", 18", 24", 30", 36", 48"
46" Width x 20" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"

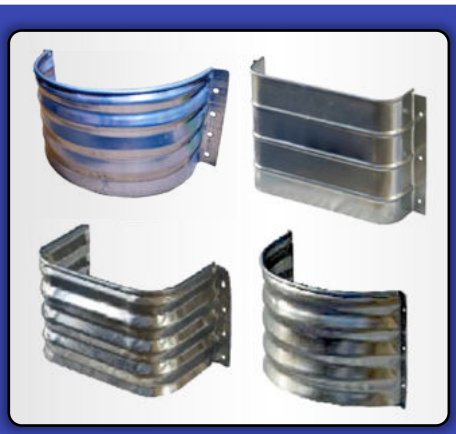

Semi circle plastic window wells **provide light to your basement and a rust free alternative to metal wells.**

- Made from durable plastic
- Sizes bolt together easily for adjustable depth
- Keeps landscaping away from your windows
- 7-Year Warranty
- Ship directly to home or construction site
- All window wells can be purchased with a matching window well cover.

Width x Projection	Available Depth
37 " Width x 16" Projection	12", 18", 24"

VENT WELLS

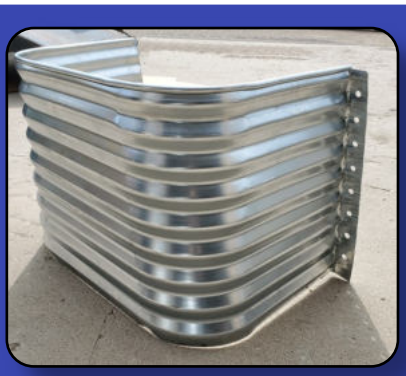

Semicircle or Square metal crawl space wells are available in a variety of sizes.

- One piece galvanized steel Vent Well
- Increases natural airflow to crawl space
- Stackable if needed for your application
- 30 year Warranty
- We can easily pair this window with a Flat low profile cover

Width x Projection	Shape	Available Depth
16 " Width x 4" Projection	Square	11.5"
20" Width x 8" Projection	Round	11.5"
20" Width x 12" Projection	Square	11.5"
20" Width x 12" Projection	Round	11.5"

NON EGRESS WELLS

Our 24" Projection Galvanized on Egress well provides more light into your basement than other smaller wells

- Great for basement utility rooms
- Galvanized Steel Well
- 30 year warranty
- We can easily pair this window with a low profile cover

Width x Projection	Gauge	Available Depth
37" Width x 24" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
42" Width x 24" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
48" Width x 24" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
55" Width x 24" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
63" Width x 24" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
72" Width x 24" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"

STACKED STONE WELLS

Stacked Stone Composite Egress Wells **are a great way to add the look of a stone egress well with less expense and a lot less leakage.**

These wells are available in two widths and two heights, in code compliant sizes as shown in the chart below.

- These sturdy wells are wide enough to accommodate slider windows of up to 60” wide, for more light in the basement
- The tan color and stone texture are pleasing to the eye
- The egress ladder steps are molded into the well itself
- We can easily pair this window with a low profile cover
- 10 year warranty

Width x Projection	Available Depth
54" Width x 38" Projection	60", 72"
65” Width x 36" Projection	60", 72"

DECORATIVE STONE WELLS
GRAY

Gray Decorative Stone Egress Wells **are an attractive way to dress up the ordinary steel window well. Available in a wide variety of sizes, these egress code compliant wells will give you a pleasing view from the window.**

- Have the look of a stone wall out your basement window, instead of a plain galvanized steel well
- Gray, blue-gray and dark gray color tone Egress Well
- 18 gauge steel construction
- Some sizes available in heavy duty 16 gauge, shown on page 27.
- 30 year warranty
- Ship directly to home or construction site
- We can easily pair this well with a low profile cover
- Egress ladders for these wells are sold separately, and are required by code for a well depth of more than 44”

Width x Projection	Gauge	Available Depth
42" Width x 36" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
50" Width x 36" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
55" Width x 36" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
60" Width x 36" Projection	18	12", 18", 24", 30", 36", 48", 60", 72"
67" Width x 36" Projection	18	12", 18", 24", 30", 36", 48", 60"
75" Width x 36" Projection	18	12", 18", 24", 30", 36", 48"

DECORATIVE STONE WELLS
TAN

Tan Decorative Stone Egress Wells **— attractive alternative to the ordinary steel window well. They are available in a wide variety of sizes shown below. These egress code compliant wells will give you a pleasing view from your window.**

- Have the benefits of steel, but the pleasing view of a stone wall out your basement window, instead of galvanized steel
- Tan and brown toned Egress Well
- 20 gauge steel
- 10 year warranty
- Ship directly to home or construction site
- We can easily pair this well with a low profile cover
- Egress ladders for these wells are sold separately, and are required by code for a well depth of more than 44”.

Width x Projection	Gauge	Available Depth

55" Width x 36" Projection	16	84", 96"
60" Width x 36" Projection	16	84", 96"
67" Width x 36" Projection	16	72", 84", 96"
75" Width x 36" Projection	16	60”, 72", 84", 96"
80" Width x 36" Projection	16	12", 18", 24", 30", 36", 48", 60", 72", 84", 96"

EGRESS LADDERS

Hook over - metal well

White Ladder

Hook over -concrete well

Bolt on - any well

Black Ladder

Egress ladders **are often overlooked on an egress well.**

All egress window wells, no matter what they are made of, must have a ladder if the well is deeper than 44" to be code compliant.

We have ladders to cover any situation, metal well hook over, concrete and bolt on ladders for all other well types.

Optional: Ladders may be powder coated in black in any size, however white metal hook over are available 3, 4, or 5 step; either option for an additional cost.

Well Depth	Ladder Size
48" or less	3 Step Ladder
52"--62"	4 Step Ladder
63"--72"	5 Step Ladder
73"--83"	6 Step Ladder
84"--96"	7 Step Ladder
97"--108"	8 Step Ladder

EGRESS WINDOWS

Our **Egress Windows** have a 100% vinyl frame. No painting or rust! Screens are included, and double pane construction saves energy. Meets Uniform Building Code for Egress.

- Pour in place or replacement
- Plastic covered for protection while shipping and installing
- Meets UBC and IRC-200 codes for Egress

Inswing egress windows:

- Sized 33” x 36” for 42” wide wells
- Windows reversable if poured incorrectly. Header, jamb and sill parts snap in for correction

Slider windows:

- Sized 48” x 48” for 55” or 67” wide wells

EGRESS KITS
Stacked Stone

This complete egress solution kit contains:

- Our ***Stacked Stone*** composite egress size well comes in two widths and depths. It has rugged construction, stone texture.
- The well is large enough to fit a 48” wide sliding window!
- The egress ladder is molded into the well for ease and durability
- Unbreakable Sloped covers are included with the kit
- Optional: We can also add cover locks to your order for additional cost.
- Optional: Hinge and prop up bar may be available. Call your sales rep for details

Width x Projection	Available Depths
54" Width x 38" Projection	60", 72"

DECORATIVE LINERS

Decorative Liners really change the view from your basement window. They are available in solid white, a variety of stone looks, and great nature and outer space scenes.

Made of durable materials and UV inks-fade resistant!

They are available in three sizes 80” x 40”, 100” x 60”, and 120” x 60”.

Most scenes available in all three sizes.

ACCESSORIES

Hinges, Hatches

Adding a *Cover Hinge* to your low profile cover has some great benefits.

- Hinges make a large cover much easier to handle when it needs to be opened
- The cover stays put because it is attached to the window well or the foundation wall; just lift the front edge for access.
- The included prop up bar holds the cover out of the way for home maintenance or emergency escape

Adding an *Escape Hatch* is a very wise choice for oversize covers.

Emergency escape is so much easier and safer by just lifting a small portion of your window well cover. Extra large covers may be fore work to remove for ventilation or doing home maintenance.

- Hatches are available on any egress compliant well cover except unbreakable bubbles
- We design Hatch placement based on escape path and customer request

ACCESSORIES

Cover Locks

Cover Locks **add to your home's security, and helps keep your cover in place in high winds.**

- We have developed lock systems for each type of cover we have developed, except for Bubble covers.
- None of our locks need any special knowledge or tools to remove the cover from inside the house.
- We make our locks from aluminum and other rustproof metal for years of trouble free service

Front Panels

Front Panels **are crystal clear and are mainly made for plastic and timber wells that have a gap at the front of the well.**

Seeing the need, we have developed a combination of crystal clear plastic and strong aluminum to cover the front open space at the front of the well.

ACCESSORIES

Back Panels

Back Panels **are an invention of our owner that helps to prevent debris, snow, and rain from getting into your window well.**

Vertical Back Panels attach to the back bar of the cover, or the foundation wall; and it will cover the gap made in the foundation wall by the window.

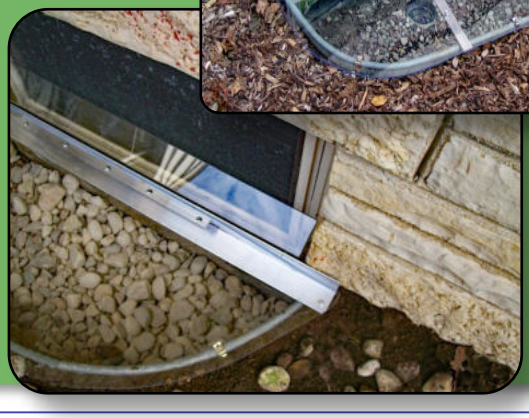

- Made from the same UV treated plastic as the cover
- Protects the window from moisture and flying objects that would normally break it.
- We provide the hardware and instructions needed for an easy installation.

Back Splashes

Back Splashes (a shorter bent piece of plastic) are an innovation of our owner because customers love our low profile covers, but a solution was needed for the water and debris that accumulate in their wells.

- Back splashes fill most of the gap without covering the entire window.
- Ideal for really tall windows above the well
- Ideal for stone foundations
- Window can still be opened for easy ventilation

BUYING WINDOW WELL COVERS IS AN EASY 5 STEP PROCESS!

1

GET A FREE ESTIMATE

Check out the printable measuring guide found on the next page and carefully measure your well. Call us with your measurements and get your free estimate right away, or go to WindowWellExperts.com and submit your request online.

2

PLACE YOUR ORDER

After getting your estimate, place your order by phone. Call us at 888-650-9355, we will be glad to help you. All major credit cards accepted.

3

COMPLETE THE CONFIRMATION PROCESS

Our engineering team will then email you to ask for some specific measurements of your well and a few photos to be sure that we can make you the best fitting cover the first time.

4

WATCH FOR TRACKING INFORMATION

Once your cover is completed, we will email you with tracking information.

5

INSTALL YOUR COVERS

We include all hardware, detailed instructions, and we are available for a call if you need help. Depending on your well installation can take less than 45 minutes.

Have questions? Call us 888-650-9355

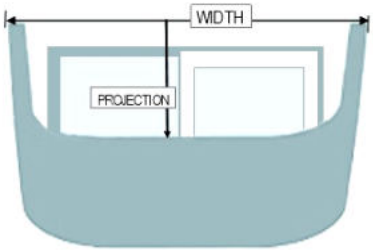

MEASURING GUIDE

Submit your measurements online
at WindowWellExperts.com/submit
Or call us at 1-888-650-9355

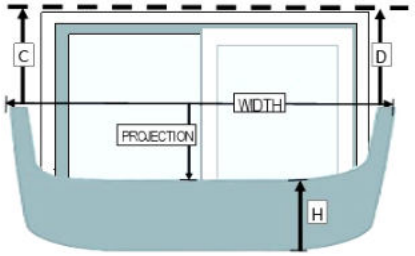

Determine the material of your window well and if your window is below or above your window well.

If you have a **Metal** Window Well

Window Below

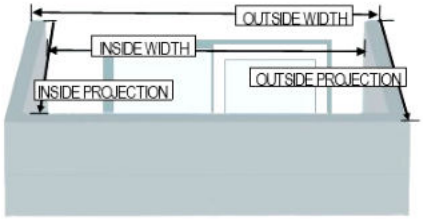

Window Above

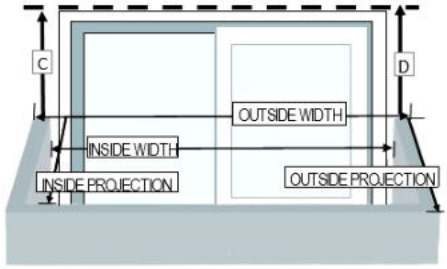

If you have a **Concrete/Plastic/Wood/Brick** Window Well

Window Below

Window Above

IMPORTANT:

For **Metal Wells,** measure to the outside edges of your metal well to the nearest 1/8" from side to side and back to front as shown in the first two diagrams.

H — Distance from the well lip to the ground, needed on metal wells only.

For **Concrete/Plastic/Wood/ Brick Wells,** measure the outside dimensions of your well to the outer edges, as shown in the second row of diagrams. Then measure the inside dimensions to the inner edge.

FOR ALL WELLS:

C & D — Measure the distance from the lip of the well to the top of the window frame. Do this on both the left and right sides, and note the numbers below.

Window Well Data:	Material	Metal	Concrete	Plastic	Wood	Paver/Brick
Circle all that apply	Shape	Circular	Elongated	Rectangular- Rounded corners	Tapered/U Shape	Rectangular
Circle one	If window is above	Slider	Crank-out	Awning	Other:_____	

Well (in inches)	#1	#2	#3	#4	#5	#6	#7
Window Above or Below Well Check one	___Above well ___Below well	___Above well ___Below well	___Above well ___Below well	___Above well ___Below well	___Above well ___Below well	___Above well ___Below well	___Above well ___Below well
Outside Width							
Inside Width							
Outside Projection							
Inside Projection							
Dimension C (if above)							
Dimension D (if above)							
Dimension H (if metal well)

Customer Testimonials

JESSICA L.

Aluminum Grate

I wanted to let you know we received the grates today and they fit perfectly. We are so happy with them.

LARRY G.

Atrium Window Well Cover

They work well keeping out rain and debris. They also help to prevent the grand kids from falling in the window well. Thanks for the excellent covers—a happy Ohio customer.

JON G.

Aluminum Grate

Easy to follow instructions. Client focused support, tremendous quality!

PATRICK A.

Sloped cover

Nice product, provides a finished look.

PAUL K.

Sloped Cover

I'm glad you ask for pictures of the well and the extra measurements. When the cover arrived it was a perfect fit. Thanks

MATTHEW C.

Atrium Cover

Love the cover!

ROB F.

Super Slant

Great engineering coordination and construction.

AARON B.

Sloped Cover

Window Well Experts really were experts. Had several phone calls on measurements and size. They made them perfect.

KENNETH K.

Steel Grate

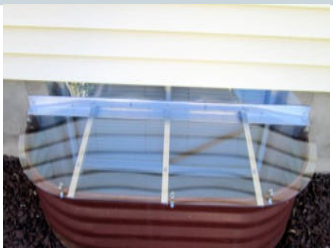

The final product was better than expected. Communication during the engineering phase was very professional. The engineering coordinator was very helpful.

NADIA S.

Sloped Cover

Our Window Well was not the standard size and finding the correct size Window Well cover has been way harder than it should be. Window Well Experts, was a time saver and made the ordering process so easy!

RICHARD K.

Sales gave me a lot of information about my window well covers. They even sent me info about measuring my well for the covers. They are very well informed about their jobs.

DEBORAH M.

Sloped Cover

The whole process with the engineering and sales teams were with out a doubt the most professional yet cordial group of people I've dealt with in my 22 months of house repairs and renovations in a house I purchased on 9/2020.
