WINDOW WELL EXPERTS

ABOUT OUR COMPANY AND PRODUCTS

About our Company:

We have seen it all! We have over 50 years of experience in the custom window well cover business, and offer a wider variety of custom covers than other manufacturers. If you want one cover or one thousand, we have you covered, and we cater to both contractors and homeowners. We are an innovator in this business and have developed new accessories and cover types through the years. All of the products we sell are made in the USA.

A window well cover is the best decision to protect any type of window well. We have a great selection of covers that will solve any problem.

These points apply to all our Covers:

- Each cover is custom made for each specific well.
- All our covers are designed to keep kids and pets safe.
- The Polycarbonate we use is always UV treated to prevent yellowing, cracking and breaking. This plastic stays stable in high heat and bitter cold, and is virtually unbreakable.
- Our Sloped, Flat, and Bubble window well covers come with a lifetime warranty.
- When we refer to egress size covers, we base this on the IRC Code for window wells over the minimum 36” wide x 36” projection.
- Please note that after you place your order our engineering team will email you to ask for some specific measurements of your well and a few photos to be sure that we can make you the best fitting cover the first time.
- We will ship directly to you, whether it be to your home, a business, or construction site.

SUPER SLANT

Our *Super Slant Window Well Cover* has the best features of all our covers combined into one. The hinged, slanted top sheds water and snow effectively, and the mesh sides provide constant ventilation of your window well.

These heavy duty window well covers have a sturdy, welded, rust free aluminum frame along with the unbreakable plastic. The hinged flip top (or the escape hatch in larger sizes) al-lows anyone to lift the cover top easily in case of an emergency.

The Super Slant cover features:

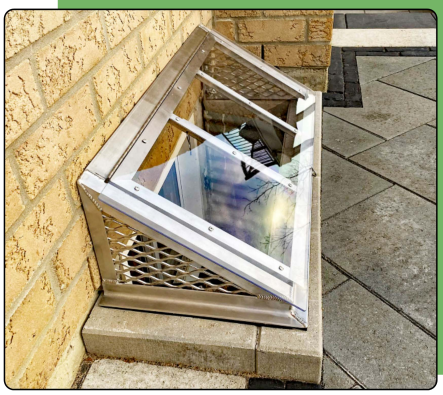

- Slanted top for optimal drainage
- Aluminum mesh sides for ventilation
- Supports 400 pounds of static weight
- Hinge and prop-up bar is included on the flip top for easy access and ventilation
- Quick release locking system for the cover on larger sizes
- Warranty 7 years
- Optional: Polycarbonate sides instead of mesh sides are available at no charge, if desired.
- Optional: Escape Hatches, and Polycarbonate inserts for mesh sides (to prevent snow infiltration) are available for an additional cost on larger sizes

SUPER SLANT

ATRIUM COVER

The *Atrium Window Well Cover* is designed to protect your well and the portion of your window that comes above the lip of your window well.

The Atrium is designed so that your casement or crank out style windows can easily open into the well. This cover keeps egress wells clear of ice, snow and debris so that emergency escape is possible. Many customers buy this cover just for the good looks of it!

Atrium features:

- These covers have an unobstructed view; rarely any braces in your line of sight.
- Always egress compliant on an egress sized well.
- Atrium Covers release from the clips provided for emergency escape or home maintenance.
- Optional: Aluminum Mesh Sides that allow easy ventilation and provides airflow for vent pipes, Cover Locks, and Escape Hatches are available on larger covers at additional cost.

WINDOW WELL EXPERTS

SLOPED COVER

Our *Sloped Window Well Covers* will provide your home with virtually unbreakable protection.

The low profile Sloped Cover is our best seller, and here is why. This low profile cover is sleek, unobtrusive protection for your yard. It easily blends into the background, giving you a lifetime of clean, dry window wells, with snap on installation, and snap off removal for emergency escape or home maintenance.

Our Sloped Covers feature:

- The clamshell design (up to 2" slope) provides for water drainage, and is self-cleaning with a rain shower or a rinse with a hose, shedding water and debris away from your home.
- We use a high grade Polycarbonate that is UV treated to stay clear.
- Provides safety for kids and pets.
- Keeps snow, rain, dirt, yard debris, and animals out of your window well.
- Supports 400 pounds of static weight.
- Easy do it yourself installation.
- Durable—lifetime warranty.
- Optional: Quick Release Locks, Escape Hatches, and Cover Hinges are all available at additional cost.

SLOPED COVER

WINDOW WELL EXPERTS

FLAT COVER

Our *Flat Window Well Covers* are made of virtually unbreakable polycarbonate, and are custom-designed to fit any shape, size, and type of window well.

Our low profile Flat Window Well Covers have nearly all the advantages of our Sloped cover. They are an economical alternative to our Sloped Covers.

Flat Cover features:

- Supports up to 400 pounds static weight
- Provides safety for kids and pets.
- We use a high grade Polycarbonate plastic that is UV treated to stay clear
- Egress compliant in certain sizes
- Lifetime Warranty
- Optional: We have Quick release locks, Cover hinges, and Escape Hatches available at an additional cost

WINDOW WELL EXPERTS

FLAT COVER

Aluminum Grates

Aluminum Window Well Grates **are the best choice for ventilation for your basement.**

Rust proof aluminum is an amazing material for grates. Expanded mesh allows fresh air ventilation, it allows light into your basement, keeps out all but the smallest debris and is much, much lighter than prefab steel grates offered by many window well manufacturers.

Aluminum Grate features:

- Rust free, and lightweight for easy emergency escape.
- Supports up to 40 pounds per square foot. Commercial and heavy duty grates available for high traffic situations for additional cost.
- Grates are less slippery than plastic, especially good for decks.
- Options: We can customize your Grate further with a Full Fange-one continuous flange support for rectangle wells; Powder Coat Paint available in Black and Gray as well as custom RAL colors; Grate locks, and Emergency Escape Hatches are available for an additional cost.

STEEL GRATES

We make *Steel Window Well Grates* for any type well.

Steel Grates are excellent for small wells, as they are heavy enough to stay in place in strong winds. We can make them to any shape or size.

Steel Grate features:

- Keeps kids and pets safe.
- Keeps out most animals and large debris.
- Makes ventilation easy—no removing the Grate.
- Powder-Coat Finish in Black or Gray is included in the price.
- 7 year warranty.
- Optional: Full Flange option, RAL custom colors, and heavy duty and commercial grade grates also available for additional cost.

TOP COVERS

Clear plastic *Top Covers* are another way to have the best of everything with a window well cover.

Clear plastic Top Covers add additional snow and water protection. The covers are versatile and can be left on through the winter and spring thaw, and taken off and easily stored for the summer and fall, or just be removed when fresh air ventilation is needed.

Top Cover features:

- Custom made to fit over ANY window well grate.
- We use a high grade Polycarbonate plastic that is UV treated to stay clear.
- Available in either Sloped or Flat Style.
- Keeps out water, snow, and debris.
- It will push off with your grate for emergency egress.
- Optional: A Hinge & Prop-Up Bar is available for easiest ventilation, and if you purchase a grate from us, we can powder coat the back bar and any other metal parts to match the grate for an additional cost.

BUBBLES

Our *Bubble Window Well Covers* are the only UNBREAKABLE bubble available in the market.

- We use a high grade Polycarbonate that is UV treated to stay clear.
- Designed to cover windows that extend above the well.
- See our bubble durability test video: https://www.youtube.com/watch?v=Po0h0TwMz6c.
- Available in the sizes shown on the chart below.
- Bubbles have a lifetime Warranty.

Width x Projection x Height	Shape
38" x 17" x 15"	Semi Circular
38" x 17" x 24"	Semi Circular
43" x 18" x 15"	Semi Circular
43" x 18" x 24"	Semi Circular
43" x 21" x 20"	Semi Circular
43" x 14" x 15"	Elongated
43" x 14" x 24"	Elongated
46" x 14" x 16"	Elongated
46" x 14" x 24"	Elongated

ELONGATED WELLS

Elongated metal window wells **provide great protection from water and debris for your basement windows.**

The smaller projection of elongated window wells will save space, especially in narrow side yards.

- Elongated wells have the widest variety of sizes available for non-egress wells.
- Made out of 18 gauge galvanized steel.
- These wells have a 30 year warranty.
- Ships directly to home or construction site.
- All window wells can be purchased with a matching window well cover.

Width x Projection	Gauge	Available Depth
37" Width x 12" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
40" Width x 14" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”

55" Width x 18" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
59" Width x 18" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
67" Width x 18" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
71" Width x 20" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
79" Width x 20" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
91" Width x 20" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”

SEMI-CIRCLE WELLS

Semi Circle metal window wells **are a traditional window well shape that allows more light into the basement than Elongated wells.**

- Made from galvanized steel.
- Keeps landscaping away from your windows.
- These wells have a 30-Year Warranty.
- Ships directly to home or construction site.
- All window wells can be purchased with a matching window well cover.

Width x Projection	Gauge	Available Depth
37 " Width x 16" Projection	20	12”, 18”, 24”, 30”, 36”, 48”
40" Width x 20" Projection	18	12”, 18”, 24”, 30”, 36”
46" Width x 20" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”

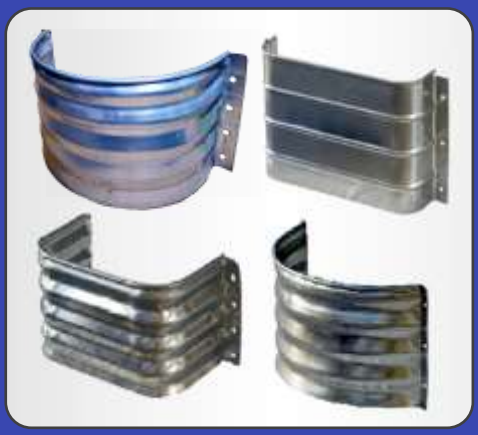

Semi circle plastic window wells **provide light to your basement and a rust free alternative to metal wells.**

- Made from durable plastic.
- Sizes bolt together easily for adjustable depth
- Keeps landscaping away from your windows.
- These wells have a 7-Year warranty.
- Ships directly to home or construction site.
- All window wells can be purchased with a matching window well cover.

Width x Projection	Available Depth
37 " Width x 16" Projection	12”, 18”, 24”

VENT WELLS

Semicircle or Square metal crawl space wells are available in a variety of sizes.

- One piece galvanized steel Vent Well.
- Increases natural airflow to crawl space.
- Stackable if needed for your application.
- 30 year Warranty.
- We can easily pair this window well with a low profile Flat cover.

Width x Projection	Shape	Available Depth
16 " Width x 4" Projection	Square	11.5"
20" Width x 8" Projection	Round	11.5"
20" Width x 12" Projection	Square	11.5"
20" Width x 12" Projection	Round	11.5"

NON-EGRESS WELLS

Our 24” Projection Galvanized Non-Egress window well provides more light into your basement than other smaller wells.

- Great for basement utility rooms.
- Industry standard Galvanized Steel Well.
- 30 year warranty.
- We can easily pair this window well with a low profile Sloped or Flat cover.

Width x Projection	Gauge	Available Depth
37" Width x 24" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
42" Width x 24" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
48" Width x 24" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
55" Width x 24" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
63" Width x 24" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
72" Width x 24" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”

QUARRY VIEW WELLS

Quarry View Fiberglass Egress Wells **are a great way to add the look of a stone egress well with less expense and a lot less leakage.**

These wells are available in two widths and two heights, in code compliant sizes as shown in the chart below.

- These sturdy wells are wide enough to accommodate slider windows of up to 60” wide, for more light in the basement.
- The tan color and stone texture are pleasing to the eye.
- The egress ladder steps are molded into the well itself.
- We can easily pair this window well with a low profile Sloped or Flat cover.
- 10 year warranty.

Inside Width x Projection	Available Depth
54" Width x 38" Projection	60", 72"
65” Width x 36" Projection	60", 72"

STONEWALL WELLS
GRAY

Stonewall Egress Wells **are an attractive way to dress up the ordinary steel window well. Available in a wide variety of sizes, these egress code compliant wells will give you a pleasing view from the window.**

- Have the look of a stone wall out your basement window, instead of a plain galvanized steel well
- Gray, blue-gray and dark gray color tone Egress Well
- 18 gauge steel construction
- Bigger widths and depths available in heavy duty 16 gauge, shown on page 25
- 10 year warranty
- Ship directly to home or construction site
- We can easily pair this window well with a low profile Sloped or Flat cover
- Egress ladders for these wells are sold separately, and are required by code for a well depth of more than 44”
- Black powder coated ladders are also available for an additional cost

Width x Projection	Gauge	Available Depth
42" Width x 36" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
50" Width x 36" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
55" Width x 36" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
60" Width x 36" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”, 72”
67" Width x 36" Projection	18	12”, 18”, 24”, 30”, 36”, 48”, 60”
75" Width x 36" Projection	18	12”, 18”, 24”, 30”, 36”, 48”

STONE VIEW WELLS
TAN

Stone View Egress Wells **from Monarch are a very attractive alternative to the ordinary steel window well. They are available in a wide variety of sizes shown below. These egress code compliant wells will give you a pleasing view from your window.**

- Have the benefits of steel, but the pleasing view of a stone wall out your basement window, instead of galvanized steel.
- Tan and brown toned Egress Well.
- 19 gauge steel.
- 10 year warranty.
- Ship directly to home or construction site.
- We can easily pair this well with a low profile Sloped or Flat cover.
- Egress ladders for these wells are sold separately, and are required by code for a well depth of more than 44”.
- Matching Coppervein ladder available.

EGRESS LADDERS

Hook over - metal well

White Ladder

Hook over -concrete well

Bolt on - any well

Black Ladder

Egress ladders **are often an overlooked safety need for an egress well.**

All egress window wells, no matter what they are made of, must have a ladder if the well is deeper than 44” to be code compliant.

We have ladders to cover any situation, metal well hook over, concrete and bolt on ladders for all other well types.

Optional: Ladders may be powder coated in black in any size, however white hook over ladders for metal wells are available 3, 4, or 5 step only; either option is available for an additional cost.

Well Depth	Ladder Size
50" or less	3 Step Ladder
51" to-62" deep	4 Step Ladder
63" to 72" deep	5 Step Ladder
73" to 84" deep	6 Step Ladder
85" to 96" deep	7 Step Ladder
97" to 108" deep	8 Step Ladder

EGRESS WINDOWS

Our **Egress Windows** have 100% vinyl frames. No painting or rust! Screens are included, and double pane construction saves energy. Meets Uniform Building Code for Egress.

- Can be used for new construction - "pour in place" or as replacement windows.
- Meets UBC and IRC-200 codes for Egress, but please check with your building inspector for local regulations

Inswing egress windows:

- Sizes 33” wide x 36 high or 27" wide x 45" high
- Window components are reversable if poured incorrectly. Header, jamb and sill parts snap in for correction

Slider windows are available in 48" wide x 48" high.

DECORATIVE LINERS

Decorative Liners really change the view from your basement window. They are available in a variety of stone looks, great nature views, and outer space scenes.

Made of durable materials and UV inks-fade resistant!

They are available in three sizes 80” x 40”, 100” x 60”, and 120” x 60”.

Most scenes available in all three sizes. See our catalog on our website.

ACCESSORIES

Hinges, Hatches

Adding a *Cover Hinge* to your low profile cover has some great benefits.

- Hinges make a large cover much easier to handle when it needs to be opened.
- The cover stays put because it is attached to the window well or the foundation wall; just lift the front edge for access.
- The included Prop-Up Bar holds the cover out of the way for home maintenance or ventilation.

Escape Hatches also make large covers so much easier to manage, especially when it comes to emergency escape, as it is so much easier to lift a light weight portion of a large cover than the entire thing.

- Hatches are egress compliant on egress sized wells.
- Hatches are available on any cover except unbreakable bubbles.
- We design Escape Hatch placement based on escape path and customer preference.

ACCESSORIES

Cover Locks

Atrium lock

Grate lock

Low profile lock

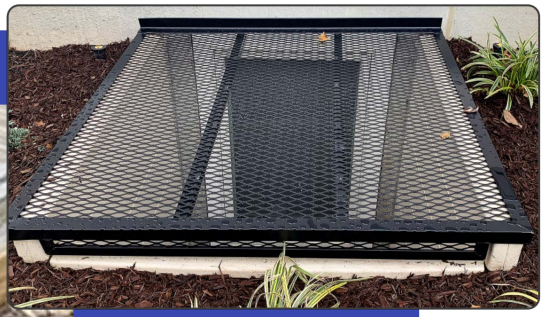

Cover Locks **add to your home's security, and helps keep your cover in place in high winds.**

- We have developed lock systems for each type of cover we have developed, except for Bubble covers.
- None of our locks need any special knowledge or tools to remove the cover from inside the house.
- We make our locks from aluminum and other rustproof metal for years of trouble free service

Front Panels

Front Panels **are crystal clear polycarbonate or aluminum mesh, and are made for wells that have a gap at the front of the well. As shown, they are adaptable for many types of wells.**

The combination of these sturdy materials will help to keep your well clean by keeping the majority of debris out. Plastic Front Panels will help reduce the amount of snow that accumulates in the well.

ACCESSORIES

Back Panels

Back Panels **are an invention of our owner that helps to prevent debris, snow, and rain from getting into your window well.**

Vertical Back Panels attach to the back bar of the cover, or the foundation wall; and it will cover the gap made in the foundation wall by the window.

- Made from the same UV treated plastic as the cover
- Protects the window from moisture and flying objects that would normally break it.
- We provide the hardware and instructions needed for an easy installation.

Back Splashes

Back Splashes (a shorter bent piece of plastic) are an innovation of our owner because customers love our low profile covers, but a solution was needed for the water and debris that accumulate in their wells.

- Back splashes fill most of the gap without covering the entire window.
- Ideal for really tall windows above the well
- Ideal for stone foundations
- Window can still be opened for easy ventilation, depending on window style

BUYING WINDOW WELL COVERS IS AN EASY 5 STEP PROCESS!

1

GET A FREE ESTIMATE

Check out the printable measuring guide found on the next page and carefully measure your well. Call us with your measurements and get your free estimate right away, or go to WindowWellExperts.com and submit your request online.

2

PLACE YOUR ORDER

After getting your estimate, place your order by phone. Call us at 888-650-9355, we will be glad to help you. All major credit cards accepted.

3

COMPLETE THE CONFIRMATION PROCESS

Our engineering team will then email you to ask for some specific measurements of your well and a few photos to be sure that we can make you the best fitting cover the first time.

4

WATCH FOR TRACKING INFORMATION

Once your cover is completed, we will email you with tracking information.

5

INSTALL YOUR COVERS

We include all hardware, detailed instructions, and we are available for a call if you need help. Depending on your well installation can take less than 45 minutes.

Have questions? Call us 888-650-9355

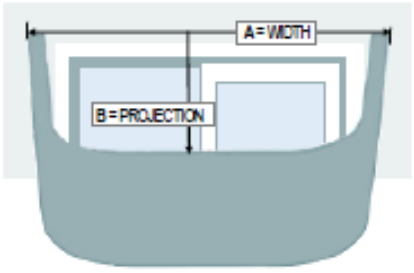

Window Well Measuring Guide

Choose what material your window well is made from, and if your window is below or above the lip of your window well.

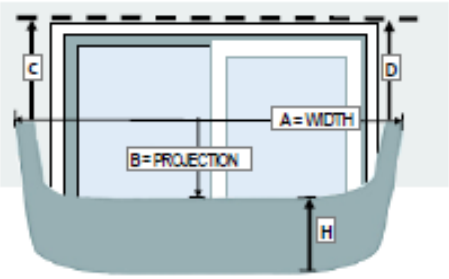

Submit your measurements online
at WindowWellExperts.com/submit
Or call us at 1-262-740-7220

If you have a **Metal** Window Well

Window below the lip of the well

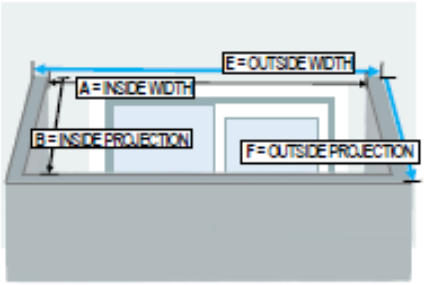

Window above the lip of the well

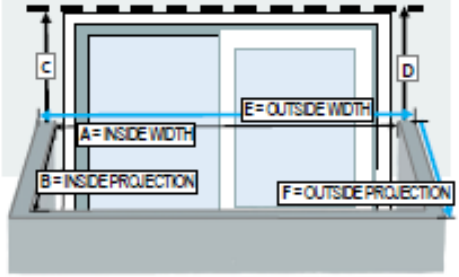

If you have a **Concrete/Plastic/Wood/Brick** Window Well

Window below the lip of the well

Window above the lip of the well

IMPORTANT:

For **Metal Wells,** measure to the outside edges of your metal well to the nearest 1/8" from side to side and back to front as shown in the first two diagrams.

H — Distance from the well lip to the ground, needed on metal wells only.

For **Concrete/Plastic/Wood/Brick Wells,** measure the outside dimensions of your well to the outer edges, as shown in the second row of diagrams. Then measure the inside dimensions to the inner edge.

FOR ALL WELLS:

C & D — Measure the distance from the lip of the well to the top of the window frame. Do this on both the left and right sides, and note the numbers below.

Window Well Data: Check all that apply	Material	Metal ☐ | Concrete ☐ | Plastic ☐ | Wood ☐ | Paver/Brick ☐
	Shape	Circular ☐ | Elongated ☐ | Rectangular-Rounded corners ☐ | Tapered/U Shape ☐ | Rectangular ☐
	Window type	Slider ☐ | Crank-out ☐ | Awning ☐ | Other:_____

Well (in inches)	#1	#2	#3	#4	#5	#6	#7
Window Above or Below Well Check one	☐ Above well ☐ Below well	☐ Above well ☐ Below well	☐ Above well ☐ Below well	☐ Above well ☐ Below well	☐ Above well ☐ Below well	☐ Above well ☐ Below well	☐ Above well ☐ Below well
A = Inside Width							
B = Inside Projection							
E = Outside Width							
F = Outside Projection							
C=left window frame height							
D=right window frame height							
H=height of well above grade
