

Window Well Measuring Guide

Determine the material of your window well and if your window is below or above your window well.

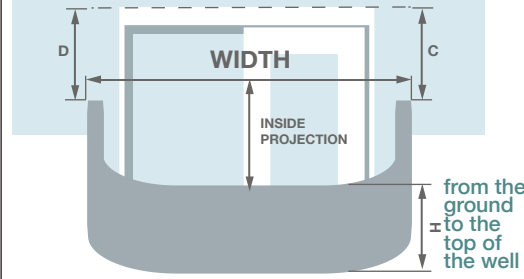

Submit your measurements online at WindowWellExperts.com/submit or call us at 1-888-650-9355

If you have a **Metal** Window Well

Window below

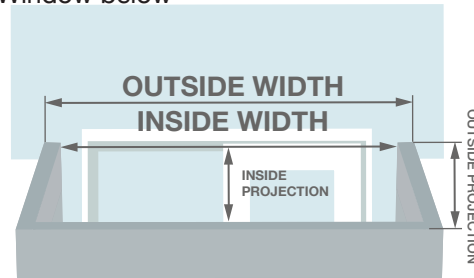

Window above

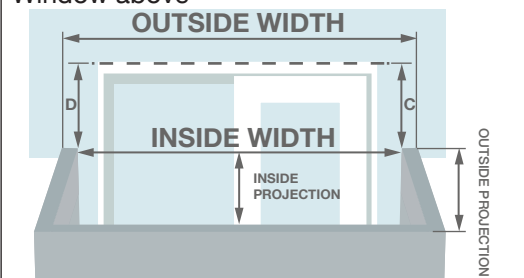

If you have a **Concrete/Plastic/Wood/Brick** Well

Window below

Window above

IMPORTANT

For **METAL WELLS**, measure to the outside lip of your well to the nearest 1/8th inch.

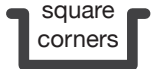

For **CONCRETE/PLASTIC/ WOOD/BRICK WELLS**, measure the outside dimensions of your well to the outer edge. Then measure the inside dimensions to the inner edge.

INSIDE PROJECTION - Measure from the wall of the house (as shown on the graphics).

For **OUTSIDE PROJECTION**, measure from the wall to the outer edge of the well.

C & D - Measure the right and left side of the well, from the top of well to top of the window opening.

H - Distance from the well lip to the ground for metal wells.

Circle the relevant	Material	metal	concrete	plastic	wood	paver/brick
